

Bull's Dream (1980) Written by William Mylar - Real Mylar

G C (tactit) G C (tactit)  
I feel I've come to sing to you. Like the Bull used his dreams.  
G C (tactit) Am D C C/B C/A G  
I just have to make you feel. I don't ever want to leave my home again.

I can see the desert brown. And the men who have to till that ground.  
Still others come to strike them down. I don't ever want to leave my home again.

You build your worlds for today. Don't give our future much to say.  
They've always known a better way. I don't ever want to leave my home again.

Chorus

D Am D C G  
I see green hills in clear blue skies. I see them burning before my eyes.  
Em C G D C C/B C/A G  
My god, don't you even realize. I may never see my home again.

Their dreams have always been the stars. And they will wait until their day comes.  
So will their daughters and their sons. I don't ever want to leave my home again.

They keep contempt for you at bay. But they will not stand in your way.  
Soon we must all become the same. I don't ever want to leave my home again.

Chorus

I see green hills in clear blue skies. I see them burning before my eyes.  
My god, don't you even realize. I may never see my home again.

See the moon move through the sky. First it buds, then blooms, then dies.  
While sun burns all the time. I don't ever have to leave my home again.

Chorus

I see barren hills in clear blue skies. I see them growing before my eyes.  
My god, don't you even realize. You can never take away my home again.

Am D Am D  
You can never take a way. You can never take away.  
C C/B C/A G C C/B C/A G  
My home again. My home again.
